## About Me

I'm a Information Science and Engineering student at NIE, proficient in programming languages, graphic design, digital marketing, UX/UI design, and development. Committed to continuous learning and collaboration to solve complex problems. Eager to apply my skills in a dynamic and challenging environment.

---

## Education

- **Bachelor of Engineering in Information Science, NIE North, Mysuru** **2021 - Present**
  - **Amara Jyothi English Medium School, Soraba** **2018 - 2020**
- 

## Skills

- **Programming Languages:** C, Java, C++ (Basic), DBMS, Devops(Basic)
  - **Web Technologies:** HTML, CSS, JavaScript, Github, devops
  - **Design Tools:** Canva, Figma
  - **Other Tools:** Visual Studio Code, Virtual Machine, Microsoft Office (Excel, Word, PowerPoint)
  - **Additional Skills:** UX/UI Design, Graphic Design, Digital Marketing, Basic Cybersecurity
- 

## Work Experience

- **Prodigy Infotech — Web Developer** **2023**  
Focused on responsive web development and code optimization. Utilized Git for version control. Key projects include a personal portfolio, stopwatch application, and online resume builder.
  - **Cognicraft Solutions — Web Developer** **2023**  
Designed and optimized dynamic, user-friendly websites using modern technologies. Collaborated with cross-functional teams to deliver scalable solutions.
- 

## Projects

- **Grocery Inventory Management System** **2023**  
Technologies: HTML, CSS, Java, MySQL, XAMPP  
Developed a web-based system for real-time grocery stock tracking, increasing efficiency by 91percent, Integrated features for inventory updates and low-stock alerts using XAMPP.
  - **Snapdeal Automation** **2023**  
Technologies: Java, Selenium, Chrome Driver  
Automated testing processes for Snapdeal's web application, reducing testing time by 82 Percent and improvement in testing speed compared to the previous manual process. Created test scripts in Java to validate key functionalities.
  - **Snooping Attack Simulation Using Ettercap** **2023**  
Technologies: Ettercap, Kali Linux, Wireshark, Python  
Simulated ARP and DNS spoofing attacks, gaining hands-on experience in network security and mitigation techniques.
- 

## Participations

- **Hackathon Participant - HACKERRUPT '22**, Vidyavardhaka College of Engineering
  - **GeeksforGeeks Coding Challenge**, NIE South, 2022
  - **Instagram Page Management - Codesmiths**, 2022-2024
- 

## Certifications

- TCS iON Career Edge - Young Professional
  - Basics of DevOps
  - Junior Security Professional
- 

## Soft Skills

Creativity, Work Ethics, Time Management, Problem-Solving, Adaptability

---

## Languages

Kannada, English, Hindi, Telugu

---

## Personal Details

- **Father's Name:** Basavaraj
- **Mother's Name:** Shashikala
- **Date of Birth:** 30/08/2002
- **Gender:** Female
- **Nationality:** Indian
